HACKATHONS

HackOHI/O 11 Hackathon | Group 62 - Participant | Columbus, OH   November 2023

PROJECT EXPERIENCE

Portfolio Site | Showcase of myself and my thoughts on previous projects.   [Live](#)
- Implemented a dark/light mode toggle feature for seamless customization and accessibility.
- Maintaining anonymous analytics for data-driven insight to understand user behavior and engagement.
- Integrated a headless CMS for concise blog creation that supports alternative media sources.

Chicken-Store | An online carryout chicken storefront.   [Live](#)
- Developed responsive UI/UX standards for a mobile first experience.
- Established a CI/CD pipeline to instantly deploy bug fixes with zero down time for users.

Ani-Tracker | Track, share, and discover anime with friends and community.   [Live](#)
- Utilized and queried a popular third-party API, for up to date data and added search capabilities.
- Documented my process through drafting wireframes, system designs, and database schemas.

Strife | Team Project | A Discord web clone social chatting app.   [Live](#)
- Implemented WebSockets functionality, providing users with live chat capabilities.
- Collaborated through regular code reviews to improve team communication, and to identify and resolve bugs and technical debt.

AFFILIATIONS

ColorStack | Fellow | Remote, US   August 2023 - Current
- Participating in a program that promotes diversity and increases the representation of Black and Latinx professionals in the tech industry.

Son Ministries | Volunteer | Columbus, OH   2017 - 2018
- Volunteered to serve underprivileged kids k-10 to supply free daycare and free lunches over the summer, supported by fundraising events.

WORK HISTORY

Carmax - Inventory Associate   2020 - 2022
Papa John's - Line cook   2016 - 2019
